

Disney academy would like to introduce a different learning style after assessing the different types of learners you get.

Disney Academy will be working in conjunction with Maths kids.

What is Maths kids?

Maths kids is an educational math programme designed to meet each child's individual learning style in a fun and meaningful way. Children learn through 3 learning styles:

The 3 types of learners:

Visual learner

Auditory learner

Kinaesthetic learner

We would like to keep learners mentally and physically stimulated through:

- Gross motor skill development with the use of resources.
- Fine motor skills development with the point response technique.
- Concentration with the use of exercises.
- Sequencing skills with the use of number squares.
- Confidence when working with numbers.
- Eye-hand co-ordination with number balls.
- Logical thinking and develops problem solving skills.
- Social interaction by means of group learning.
- Crossing the midline with the maths tube.
- Communication skills by means of assessment technique.
- Balance with the help from different objects/body.
- Sensory development/exercise.
- Group/team work.

All of this can be achieved by just adding R180 to the school fees.

Lessons will be given in groups once a week according to age. (Mid-year certificate, end of year report and medals will be given)

Please sign which option you prefer:

I would like my child to take part, please include the R180 into my monthly school fees\_\_\_\_\_

I would prefer my child not to take part\_\_\_\_\_

Name and surname of the child\_\_\_\_\_
